PRESENT PLAN EXTRAVAGANT
Opposed to Small Council—A
Strong Business Committee
Should Run City.

Mr. George J. Seay, a member of the firm of Scott & Stringfellow, is one of the many business men of Richmond without heavy being an accommendate on a business plan. Mr. Seay has had great experience in municipal affairs, both in Petersburg, where for a number of council and this city, where he served on the Board of Aldermen.

He is firmly of the opinion that not less than 10 per cent. could be saved annually from the city's infairs managed by a committee, and in this city, where he served on the Board of Aldermen.

To a Times-Dis

To a Times-Dispatch writer Mr. Seay said:

"If The Times-Dispatch succeeds, as I trust it will, in arousing sufficient interest to bring about the change in the form of government which it is advocating for Richmond, it will have an everlasting claim upon the gratitude of the people, It could not in my opinion, be engaged in a more important public service.

"This is emphatically a practical question, and it should be met and considered as such by the people, and those best fitted to work out the problem should be urged to take hold of it. The public welfare is so much at stake in this matter that it ought to a rouse the most intense interest.

"No business in the world could be successfully conducted on the plan by which city governments are carried to —government by Councils. The trouble is not with the Councilmen, the majority of whom deserve more praise and to thanks than they ever receive. It is the first fatigue in the first fat ity among members of the new for class.
